

Earth Day Expo 2017

A full day of 'down to earth' fun!

Primary Students Year 2 - 6
Term 1, Week 9, Friday 31 March 2017

What is the Earth Day Expo?

The *Earth Day Expo* is a whole day excursion filled with fun, interactive activities that empower young people to think creatively and critically about how to generate sustainable change. Around 20 *education for sustainability* (EfS) organisations from government, private industry and community sectors support this event.

Why celebrate Earth Day?

Earth Day is celebrated by more than 200 countries around the world. This day reminds us to take responsibility for what we use and how we use it. It is a day to think of the environmental challenges we face and how to solve them. Internationally, *Earth Day* is held on 22 April each year. We celebrate it on a different date to provide the opportunity for around 600 primary school students to participate.

How does the Earth Day Expo link with the WA Curriculum?

The *Earth Day Expo* offers integrated, meaningful experiences that address *STEM*, *Humanities* and the *Arts*; and embed the cross-curricular priorities of *Sustainability* and *A&TSI Histories and Cultures*.

"Well organised, very professional. Great way of getting to know available resources".
Robyn Day, Parkwood PS

"Fantastic day. The stalls were age appropriate and kept everyone engaged. Can't wait til next year".
Russell Thomas, Bibra Lake PS
