

AUSTRALIAN ASSOCIATION
FOR ENVIRONMENTAL EDUCATION
(WA CHAPTER)

Catchments, Corridors and Coasts

The WA Chapter of the Australian Association for Environmental Education is excited to present a reimagining of its very successful Catchments, Corridors & Coasts (CCC) program.

This NEW one-day CCC event continues to encourage participants and practitioners to engage in system thinking, highlighting that Education for Sustainability (EfS) can occur anywhere - from the upper catchment, throughout the corridor and to the coast.

This event for teachers, environmental educators and sustainability champions will connect participants with a range of EfS practitioners to generate two-way dialogue and productive networks.

Thursday 10 August 2023

PERTH ZOO, SOUTH PERTH

8.00AM - 3.30PM

aaeewa.org.au

Attendees will have the opportunity to attend all six theme sessions and engage with 18 amazing EfS program providers and what they have to offer for both educators and the broader community.

You will get:

- Morning tea and all-day tea & coffee refreshments
- Networking with program providers, CCC participants and AAEEWA
- Take-home resource featuring the showcased programs and contact details of EfS providers

HELP US HOST A LOW-WASTE
EVENT: PLEASE BYO LUNCH
