

Earth Day Expo 2024

A full day of 'down to earth' fun!

Primary Students Year 2 - 6

Friday 22nd March (Week 8)

Canning River Eco Education Centre (CREEC), Wilson

What is the Earth Day Expo?

The *Earth Day Expo* is a whole day excursion filled with fun, interactive activities that empower young people to think creatively and critically about how to generate sustainable change. The activities are provided by *education for sustainability* (EfS) organisations from government, private industry and community sectors.

Why celebrate Earth Day?

Earth Day is celebrated by more than 200 countries around the world. This day reminds us to take responsibility for what we use and how we use it. It is a day to think of the environmental challenges we face and how to solve them. Internationally, *Earth Day* is held on 22 April each year. We celebrate it on a different date to provide the opportunity for primary school students to participate.

How does the Earth Day Expo link with the WA Curriculum?

The *Earth Day Expo* offers integrated, hands-on experiences that address *STEM, HaSS* and the *Arts*; and embed the cross-curriculum priorities of *Sustainability* and *A&TSI Histories and Cultures*.

"Always such a great day for students with a wide variety of hands-on activities, passionate presenters in a beautiful environment." Nicole M, Rehoboth CC

*"Very well organised, great curriculum links, really engaged our students."
Honor T, Tuart Hill PS*
